LASHES

Classic Lashes involves the process of carefully applying a single extension fibre to a single natural healthy eyelash at approximately .5 of a millimetre away from the eyelid skin making it very precise work that requires a great deal of concentration.

Hybrid Lashes is an application method that provides fabulous fullness and gorgeous texture while strategically combining our Classic and Russian lash applications across your lash line. They're the perfect choice for anyone torn between our Classic and Russian lashes.

Russian Lashes (also known as 2D-8D lashes) breaks through the classic lash limitation by having anywhere from 2 to 8 super fine extensions applied to a single natural eyelash, SAFELY.

MICROBLADING

Microblading is a form of semi-permanent make-up, where natural looking hair strokes are imitated to enhance, reshape and redefine your eyebrows.

Service	Price
Eyebrows Initial Procedure	1720.00
First Touch Up (6 weeks)	820.00
Second Touch Up (6 months)	770.00

MICRONEEDLING

Microneedling is a minimally invasive procedure for your skin, using thin needles to make tiny holes in the top layer of your skin. The damage helps stimulate your skins healing process, so it produces more collagen and elastin. These proteins keep your skin firm and smooth. This treatment improves fine lines and wrinkles, reducing acne scars, improving skin elasticity, reducing pigmentation and smoothing uneven skin tone.
